MEBANE COTTON SEED

We offer Bryan County Farmers an opportunity to buy Genuine Mebane Triumph Cotton Seed, at \$3.75 per bushel.

This Cotton comes from Lockhart, Texas. It has been kept up and improved upon by a competent cotton breeder. Mebane cotton, when kept pure will make as much seed cotton per acre, or possibly more, than any other known variety. It is a large boll cotton and mostly a five-lock cotton, fruits well and stays in the boll so well that it is sometimes called storm-proof. Twelve fifty to thirteen hundred pounds of seed cotton will make a five hundred pound bale of lint. In all common cotton it takes from fifteen to eighteen hundred pounds to make a five hundred pound bale. On an average it costs \$1.50 per hundred to pick cotton. Why spend your good money and pay for picking seventeen hundred pounds of seed cotton to make a five hundred pound bale, when if you plant Genuine Mebane Seed grown at Lockhart, Texas, you only have to pay for picking about thirteen hundred pounds?

SHERWIN - WILLIAMS PAINTS

Do not think of the cost per gallon when buying paint, but of the cost per square foot. Buy a paint that has proven its staying power. Sherwin-Williams paint covers 360 square feet, two coats, to the gallon and gives real protection.
